

Mississippi Licensed Tree Surgeons

Benny Graves, division director for plant pest programs with the Mississippi Department of Agriculture and Commerce's Bureau of Plant Industry, said his agency is responsible for licensing tree surgeons in the state. If a person advertises or presents himself or herself as a licensed tree surgeon, that person must have a license with the Bureau.

"A license with the Bureau of Plant Industry means the person has passed licensing exams and demonstrates a minimum level of competence in the tree surgeon area," Graves said. "The license does not have to be renewed, and Graves said the Bureau keeps a record of tree surgeons that are licensed and insured.
